FOR IMMEDIATE RELEASE

JOHN LENNON REMEMBERED ON SHORTWAVE'S RADIO FREE NEW YORK.

BROOKLYN, NY: On December 8th, 1990 at 11:00 PM ET (0400 UTC), Radio FREE New York will devote their entire three-hour program in tribute to the late John Lennon, nearly ten years to the exact moment of Lennon's death.

The show will contain Lennon's music, as well as exclusive coverage from outside The Dakota Apartments and interviews with Lennon fans in Central Park. There will also be period radio airchecks from the Radio FREE New York archives. Listeners will be invited to call in and participate in the evening's proceedings by recounting their own recollections of the tragic event.

The staff of Radio FREE New York includes Beatles author and archivist "Big" Steve Short, and musicologist and collector Pete Sayek, who will both be hosting the program. Also on hand will be former New York radio pirates Hank Hayes and Jim Nazium, who took to the airwaves that night to share their emotions with the listeners of underground WHOT.

Radio FREE New York airs every Saturday night via short wave giant WWCR - Clear Channel 7520 kHz, Nashville TN USA.
