Staff: Larry McRae-President, General Manager
Hal Hall-Vice President, Air Personality
Fat Frank Footer-Program Director, Air Personality, Alchoholic

Dear Billy :

Yes, this morning at 4:40AM, we heard those fatal knocks on the door. Larry McRae and I, Hal Hall, decided that since two months ago we spotted the FCC cars parked outside the FAT studios just as we were about to go on the air and as we learned later, in one of those cars was Wayne Mcgee an FCC agent waiting for us to go on the air so he could bust us. We went off the air for about two months. So on Friday April 13th. Larry and I and Frank Footer decided to go on the airfor a " Good-Bye for now Show!" About 15 minutes after we started taking calls, Larry and I both heard noises outside the FAT Studios. Larry immediately handed the phone to me and looked out the window. What he saw was a light blue station wagon with two men taking equipment out of the back. We said our last good-byes and shut down and dismantled the station. Three minutes later, was the knock on the door. Two agents came in and took some information and left. That was just 15 hours ago. We still have the mailing address open if you would like to write for info. or anything else. WFAT 1657 77street Bklyn, N.Y. 11214. We will be setting up telephone lines for you to call up and talk to us, of course it won't be on the air but you will have the chance to talk to WFAT staff members personally.
